Tennis Serving Machine T500

II. Packing List

Name	Quantity
T500 tennis serving machine	1
Install the ball frame	1
Power adapter	1
Certificate of conformity	1
Manual and warranty card	1

III. Installation Instructions

Unpacking and inspection:

Open the package, check all parts according to the packing list to ensure that there is no damage, and take out the tennis serving machine and its supporting ball frame.

Install the ball mounting frame:

Align the small opening end of the mounting frame with and against the top of the tennis serving machine. Make sure that the mounting frame is firmly mounted on the serving machine so that the ball can be fed smoothly.

Set the ball paddle:

Locate the "Π" shaped paddle on top of the tennis serving machine. Lift it toward the middle into place.

Position the serving machine and start:

Place the tennis serving machine where you want to use it, making sure the equipment is secure and there is enough space around it to operate. Press the power switch to power on the serving machine

IV. Download and install the operating application

1. Scan QR Code below or on the machine body to download and install the Aidibao Smart Serving Machine Operation Application

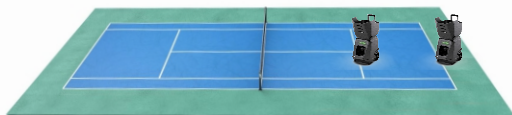

Android Download

IOS Download

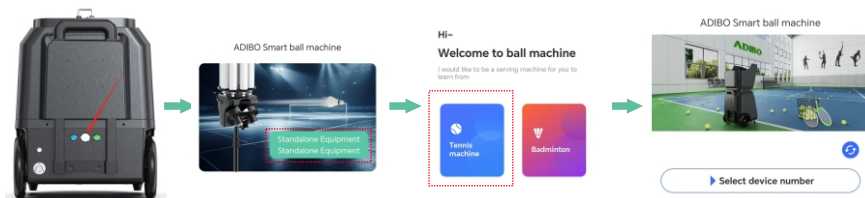

V. Brief description of operating procedures

1. Place the assembled smart serving machine at a suitable position on the court (refer to the APP to operate the position of the ball path)

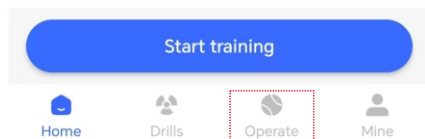

2. The intelligent tennis serving machine is powered on. When the power indicator on the serving machine is on, the serving wheel will turn left and right for power-on self-test.

3. Enter the ADIBO smart serving machine application, click the stand-alone version, select the smart tennis serving machine, select the serving machine code above the confirmation, and click the confirmation. After the machine is turned on, the power, network and working indicator lights of the serving machine will be on at the same time.

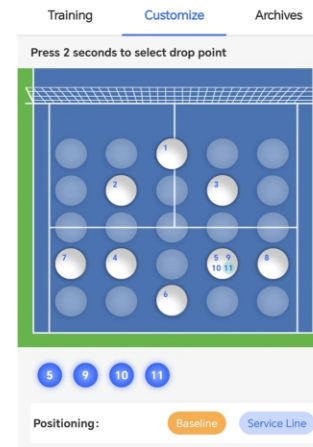

4. Enter the "Operation" column in the ADIBO Smart Serving Machine application.

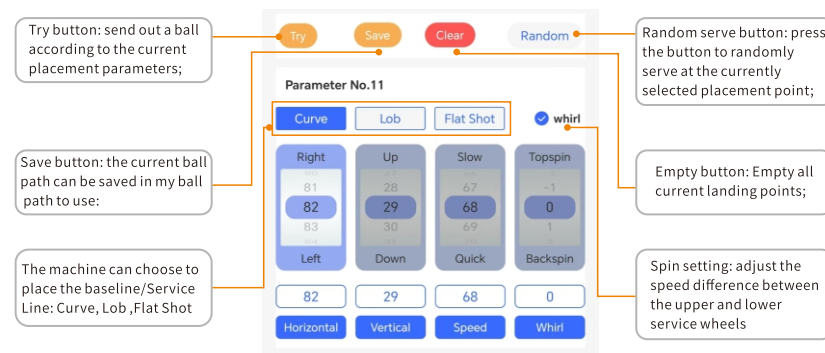

5. Preset training: There are various tennis training paths, such as fixed-point training, combination training, random training, star challenge, senior high school entrance examination training, etc. Select the corresponding training path according to your own training needs, and click Start.

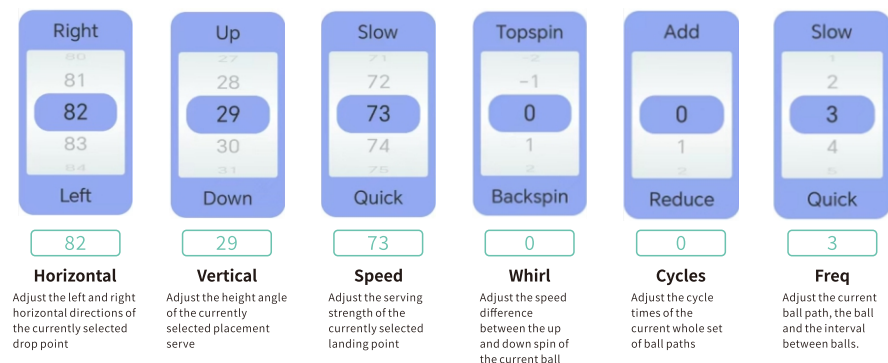

6. Customization: The graphical interface shows the tennis court opposite to the intelligent tennis serving machine. Select the machine and place it on the baseline or midline. Press and hold for 2 seconds on the schematic diagram of the required landing point to select. After selection, click below to start.

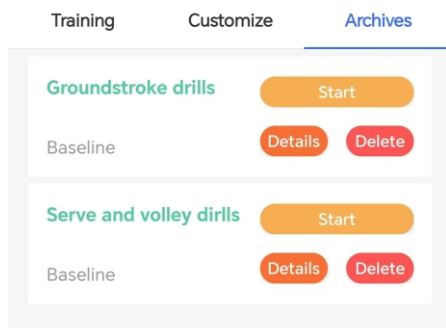

7. The adjustment diagram of custom ball path parameters is shown below.

8. Explanation of parameter adjustment button:

9. My Ball Path: After selecting the training ball path, click Save to save the current ball path as a training archive. In the future, you can directly click Start in "Archives" to train quickly.
